ZCMETAL

# About Us

Guangdong Zhongchuang Intelligent Manufacturing Technology Co., Ltd. has been deeply engaged in the field of personalized customization of metal materials for over two decades and is a leading one-stop service enterprise in the industry. We have always been committed to perfectly integrating modern high-precision intelligent engraving techniques with traditional artisan craftsmanship. We not only provide professional support for artists, architects and designers to realize their creativity, but also strive to meet the strict demands of various high-end commercial customers for metal custom products. With a pragmatic business philosophy and a scientific management system, we have established a good reputation in the industry and become the trusted choice of many international brands and well-known design companies.

# Development History

**1998**

The establishment of the company marked the beginning of its exploration in metal processing.

**2005**

The introduction of the first imported laser cutting machine marks the company's entry into a new stage of precision processing

**2013**

Serve the first international brand Westin hotel and enter the high-end customization market.

**2015**

Establish cooperation with international design companies such as HBA and CCD to deepen the integration of art and technology.

**2020**

The intelligent production base has been completed, with both production capacity and precision improved.

**2022**

Won the Platinum Award of the APDC DESIGN AWARDS, and its international influence has risen.

**2024**

Have reached cooperation with many enterprises in Southeast Asia; Launch the research and development project of the new generation of intelligent production lines.

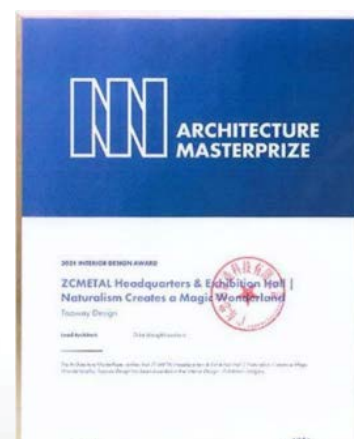

**2025**

We have successfully developed a new type of environmentally friendly metal coating technology and applied it to multiple large-scale commercial building projects.

# Honors and Qualifications

Over the years, the company has won numerous awards in the industry. In terms of international AWARDS, it has won the Platinum Award of the APDC DESIGN AWARDS, the IAI Design Award, etc. In terms of industry certification, it has passed the ISO9001 quality management system certification and has been rated as a green manufacturing demonstration enterprise. At the same time, it has also been awarded numerous honorary titles by customers such as "Quality and Creditworthy Unit" and "Best Supplier", fully demonstrating the company's strength and quality.

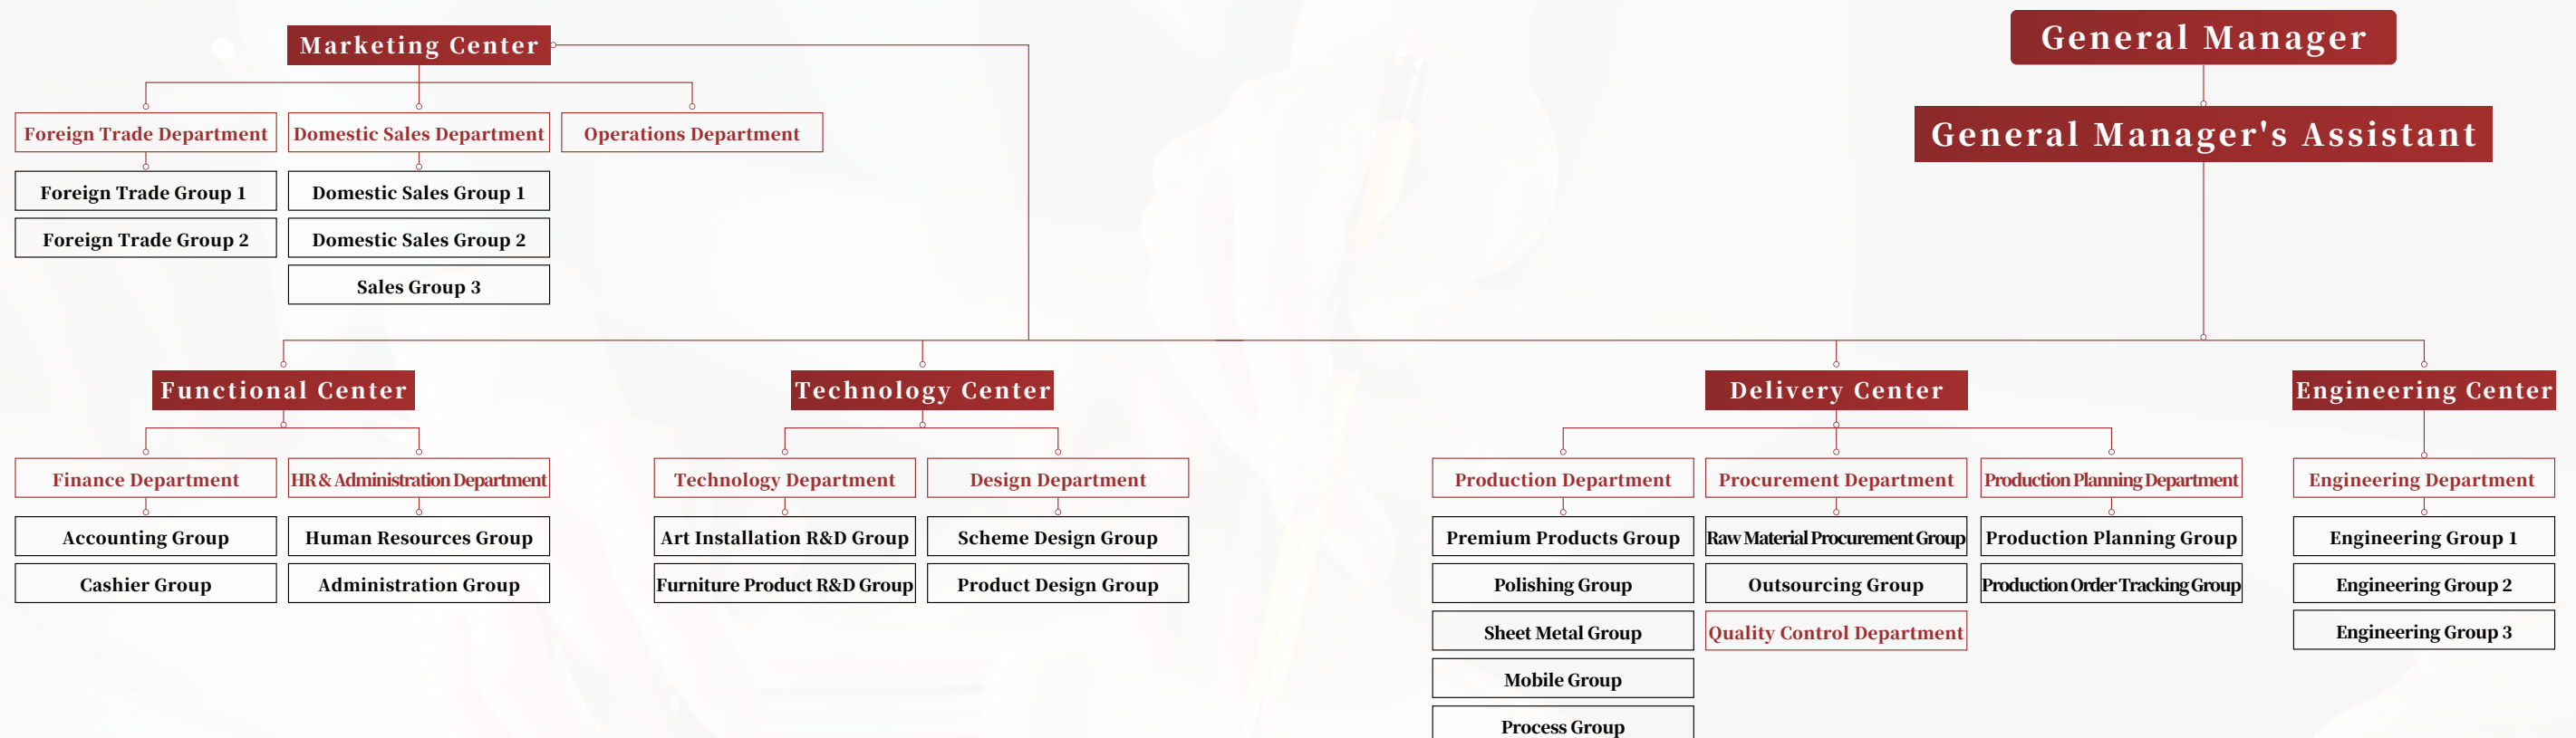

## ZCMETAL ART

# Organizational structure

The company has established an efficient and collaborative organizational structure to ensure close cooperation among all links. The management is coordinated by the general manager for strategic planning and resource integration. The core business departments include the Design and Research and Development Center, which is responsible for creative transformation and process research and development. Production and manufacturing center, equipped with advanced equipment, realizes intelligent processing; The Project Management Department provides a butler-style service with full-process follow-up. In addition, support departments such as the marketing and Sales Department, the Technical Quality Inspection Department, the supply Chain Management Department, and the Finance and Administration Department provide a solid guarantee for the company's standardized operation.

# Nine core process qualities

# Zcmetal Customization Systems

Zhongchuang's "one-stop" metal customization service summarizes 8 major metal systems. The service scope covers multiple fields such as star hotels, commercial plazas, clubs, full-house home furnishings, and creative artworks. All you need to do is provide drawings, sample drawings, design drawings, hand-drawn drawings, and photos. Zhongchuang Metal can deepen the drawings to production and manufacturing, and then install them on the ground.

## SHEET CORNER LINE SYSTEM

Corner lines, elevator corner lines, corridor corner lines, ceiling corner lines, edge banding strips, edge finishing strips, decorative lines, frame strips, inset strips, buckle strips, waist lines, mirror panels, sandblasted panels, snowflake sand panels, etched panels, antique copper panels, laser panels, patterned panels, pressed panels, etc

## DOOR CONTROL SYSTEM

Floor spring doors, revolving doors, sensor doors, elevator doors, sliding doors, swing doors, copper doors, etc

## FURNITURE SOFT DECORATION SYSTEM

Service desk, front desk, sofa, coffee table, office desk, chair, bed and cabinet, podium, umbrella stand, TV cabinet, luggage cabinet, wardrobe, dressing table, wine cabinet, etc

## ART INSTALLATION SYSTEM

Metal art paintings, large-scale sculptures, complex craft ornaments, metal vases, and spiritual fortresses

## HARDWARE SYSTEM

Door and window handles, elevator handrails, corridor handrails, staircase handrails, bathroom and toilet hardware accessories, etc

## SCREEN PARTITION SERIES

Hollowed-out screens, pipe screens, partitions, background wall reliefs, etc

## LIGHTING SYSTEM

Corridor lighting fixtures, lobby lighting fixtures, room lighting fixtures, ceiling lighting fixtures, etc

## VI/SI IDENTIFICATION SYSTEM

LOGO display, navigation signs, house numbers/offices/signs, house numbers, light boxes, advertising stands, etc

# Five Fields of ZCMETAL Services

**Culture and tourism**

Create distinctive metal elements for cultural tourism to enhance the project's appeal and cultural integration.

**Hotel**

Provide hotel metal decorations (doors, lamps, art installations) to enhance the sense of luxury.

**Architecture**

Applying metal craftsmanship to architecture enhances aesthetic value and structural innovation.

**Business**

The metal decorations in the shopping mall (screens, lighting fixtures, and wayfinding systems) attract the flow of customers.

**Villa**

Offer exclusive metal customization for villas, highlighting luxurious taste and living style.

# The services we provide

We offer systematic services covering multiple dimensions: exploring cross-industry metal solutions to discover unique solutions, solving practical installation and quality issues through on-site services and other means, and helping to enhance the efficiency of product implementation; At the same time, we focus on in-depth industry demands and are equipped with dedicated service teams. With a professional industry service middle platform (including industry consultants, product mechanics and other execution teams) and agile response and self-iteration technologies, we support customers in achieving transformation in a changing environment.

ZCMETAL ART

## Pioneer

Create cross-industry metal solutions for customers and discover unique solutions in the process of exploration and production.

## solve

Solve practical problems related to installation and quality through on-site services, workshops and other means.

## Improve quality

As a pioneer in systematic one-stop services, we help clients enhance the efficiency of product/work implementation.

## Focus

By industry as a unit, we deeply understand the demands and provide dedicated service teams.

## Professional

Establish an industry service middle platform, including execution teams such as industry consultants, product mechanics, product usage levels, and project design.

## Agile

Respond quickly to customer demands, continuously self-iterate and learn technologies, and support customers in transforming in a changing environment.

# A professional team of artisans

The team is composed of experienced metal artisans, designers and technicians, with an average of over ten years of working experience. They are skilled at handling complex processes and ensure that every product embodies craftsmanship and professionalism.

# ZCMETAL ART

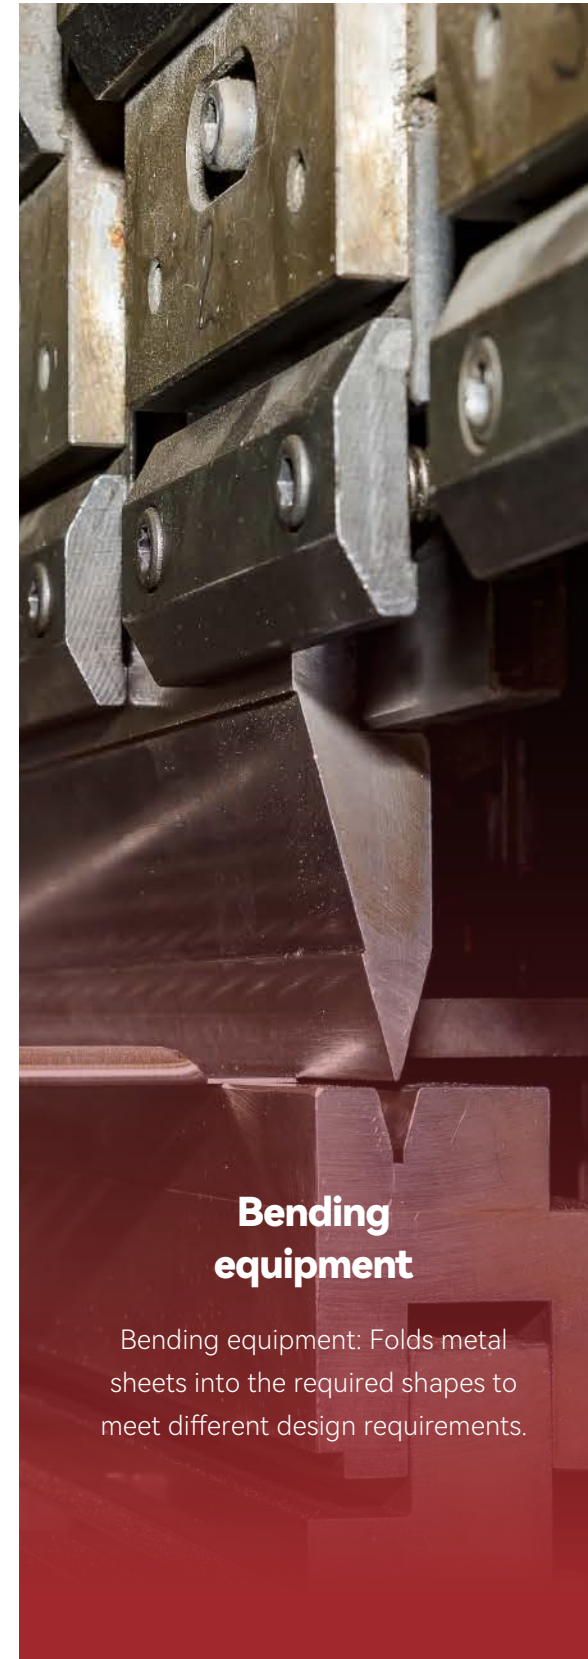

# Professional production equipment

In Zhongchuang's production workshop, equipment is not only a tool but also the core language of "intelligent manufacturing". We conduct real-time monitoring of all devices through the Internet of Things system. The operation data, processing parameters and energy consumption of each device are all connected to the central control system, achieving transparent management of the production process and dynamic optimization of process parameters. This concept of integrating industrial aesthetics into equipment management enables advanced equipment not only to ensure product accuracy but also to become the core engine for shortening the delivery cycle. Compared with the traditional processing mode, the production cycle of our customized projects is shortened by an average of 40%, and urgent orders can achieve 72-hour sample making and 15-day delivery. With the hard power of equipment, we fulfill the service commitment of "quick response and precise implementation", allowing creativity to no longer be constrained by the production cycle and ensuring quality stands the test of time.

## Advanced cutting equipment

Showcase advanced cutting equipment: Precisely cut metal plates to ensure accurate dimensions.

## Bending equipment

Bending equipment: Folds metal sheets into the required shapes to meet different design requirements.

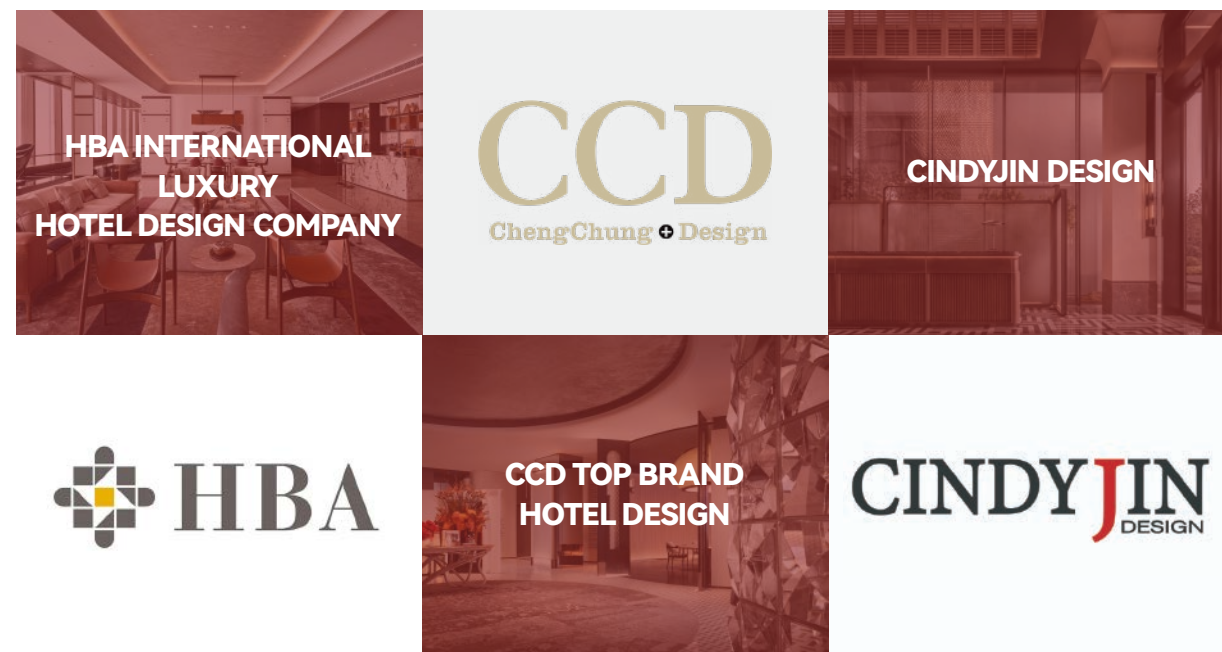

## Surface treatment equipment

Surface treatment equipment: It is used for spraying, electroplating and other treatments to enhance the appearance and protective performance of metals.

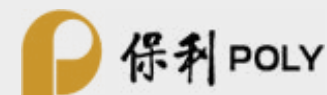

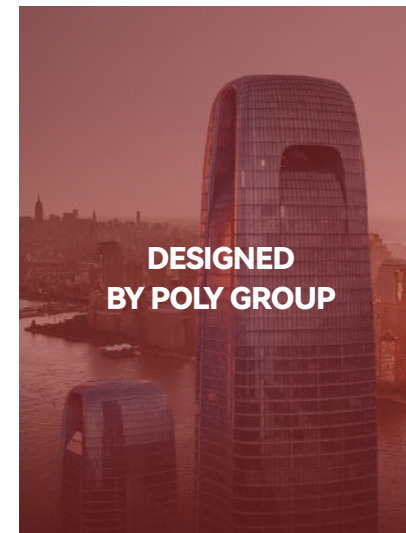

# Long-term strategic cooperation

Zhongchuang Metal Intelligent Manufacturing has established long-term strategic partnerships with many top design institutions, including CCD (Zhengzhou International Top Brand Hotel Design Institute), Beijing Jin Zhaohui Design, HBA International Luxury Hotel Design Company, as well as the four major state-owned enterprise groups, namely, China Resources, Poly, CITIC, and China Merchants. All parties integrate their advantages, from creativity to craftsmanship, to customize personalized metal solutions for star hotels, commercial buildings, etc., promoting the integration of metal art and design in high-end scenarios, shaping industry benchmarks, and presenting customers with a quality experience that combines strength and aesthetics.

# Strength Endorsement

With its outstanding quality and service, Zhongchuang has won THE trust and choice of many well-known domestic and foreign enterprises, including OPPO and Huawei in the technology field, MARRIOTT, Hilton and THE LANGHAM in the hotel industry, and Vanke, Poly Real Estate and China Sea Real Estate in the real estate field. These industry leaders jointly provide a strong endorsement of Zhongchuang's strength, fully demonstrating its highly recognized outstanding status and wide influence in the industry.

The ranking is not in any particular order.

# Zcmetal Intelligent Manufacturing - Future Value

Zhongchuang Metal Art enhances the level of its service system by gathering professional technical talents in the industry. It achieves precise production by introducing advanced equipment through technological means to present technological masterpieces. It designs unique and high-quality solutions based on customized comprehensive consideration of customer needs. It integrates global resources through internationalization and deepens cooperation with multiple regions, striving to build a high-end metal brand in China and create future value.

## SPECIALIZATION

**Professionalization:** Gather more professional technical masters and experts from various industries to enhance the professionalism and aesthetic appeal of the one-stop service system.

## CUSTOMIZATION

**Customization:** Based on a comprehensive consideration of customer requirements, dimensions, details, etc., a unique solution is designed, with every detail highlighting exclusive top-notch quality.

## TECHNOLOGY-BASED

**Technologicalization:** Introduce more advanced equipment, precisely cut and produce, allowing customers to experience works created by ultimate technology.

## INTERNATIONALIZATION

**Internationalization:** Integrate global metal resources, deepen cooperation with Southeast Asia, the Middle East, Western Europe and other regions, and build a high-end professional metal brand in China.

# Considerate Service Team

## Butler service

Business partners follow customers throughout the entire cycle and solve problems at any time.

## Focus on service

Metal industry consultants provide diagnosis, offer professional advice and solve practical problems.

## Tracking service

From the design plan to the implementation, real-time optimization is carried out to ensure that each link meets expectations.

# Business Real Estate

Leverage metal creativity to drive traffic and empower business. Design the Yunjin-inspired curtain wall of Nanjing Wanxiang Tiandi, the curved facade of Sanya Duty-Free City, and the aircraft installation of Wanda Plaza to create visual focal points, strengthen the brand image, and achieve a win-win situation of artistic and commercial value.

## BUSINESS

# Nanjing Wanxiang Tiandi

Nanjing Wanxiang Tiandi, developed by China Resources Land, is located on Zhongshan South Road in Qinhuai District. Inspired by the design of "Yun brocade weaving", it integrates the ancient architecture of Yunzhang Public Office with modern commercial facilities. Through metal curtain walls (simulating the texture of Yun brocade), dynamic lighting installations and metal reinforcement techniques, it forms a layout of "MALL + street + ancient architecture". Positioned as a cultural and tourism commercial landmark of "Elegant Qinhuai", it receives over 10 million visitors annually.

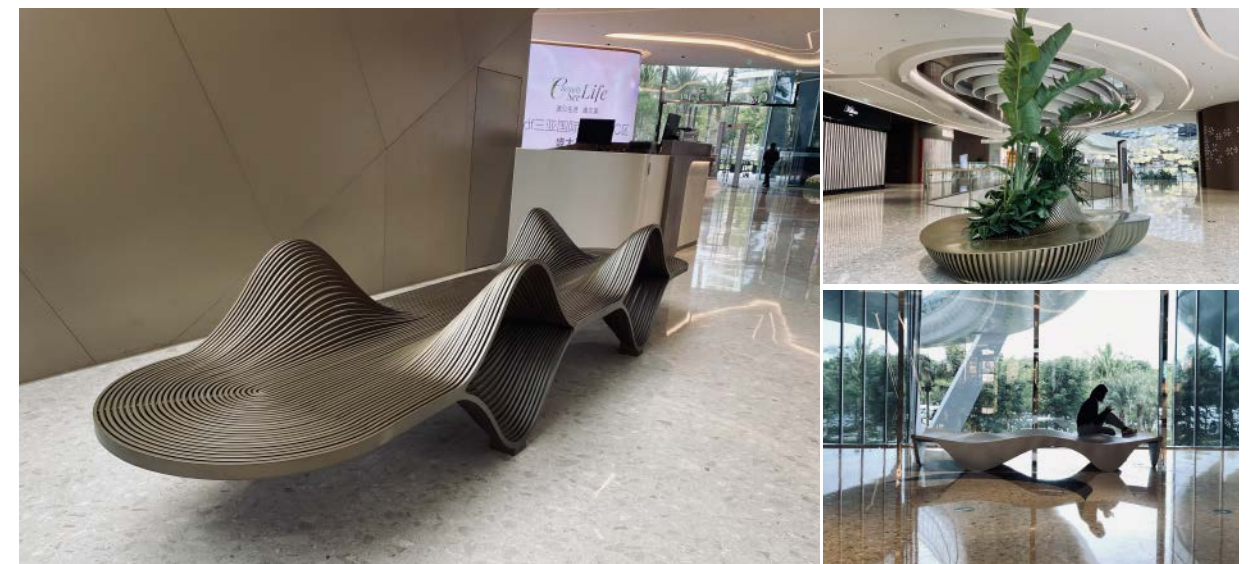

## BUSINESS

# CDF Sanya International Duty Free Mall

CDF China Duty Free Sanya International Duty Free City, invested 5 billion yuan by China Duty Free Group, is located in Haitang District, Sanya. It opened in 2014, with a construction area of 199,000 square meters. It gathers nearly 900 international brands and receives over 70 million visitors annually. The building is inspired by the "crabapple flower", featuring a curved steel structure and a metal/glass panel facade (perforated aluminum panels simulate clouds). The second phase, "Cloud Ring Bridge", was designed by Dutton, connecting the blocks with a cable-pull metal structure. It is positioned as an experiential commercial landmark integrating shopping, culture and entertainment.

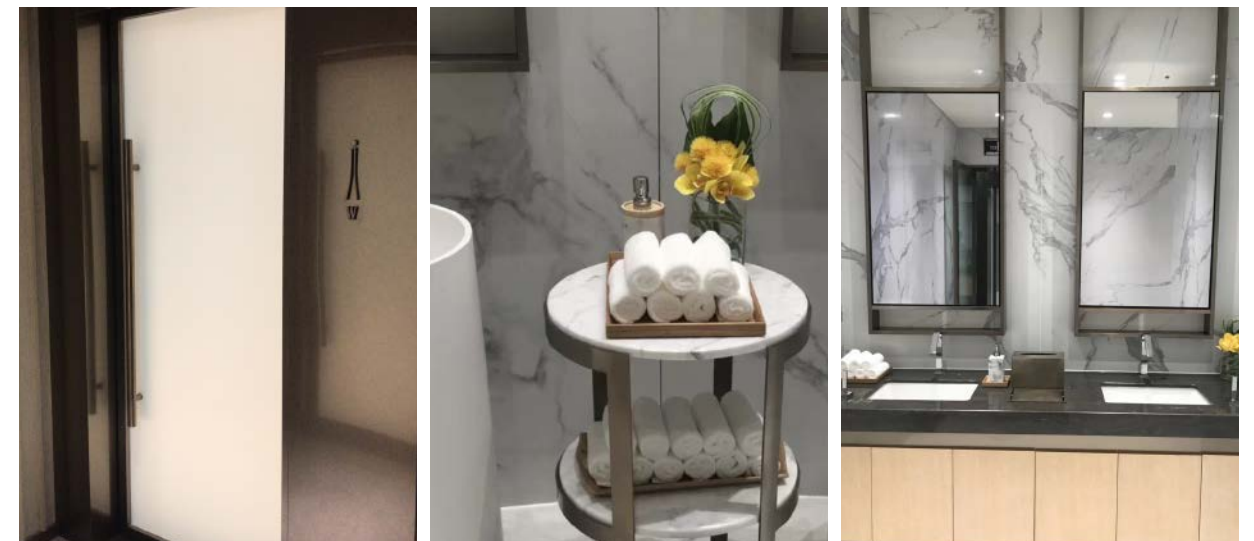

## BUSINESS

# LG Display Guangzhou Headquarters

LG Display is currently the world's largest liquid crystal display panel manufacturer and is affiliated with the LG Group. Its headquarters is located in Seoul, South Korea, and it has R&D, production and trading institutions in South Korea, China, the United States, Japan and Europe. The company mainly produces liquid crystal panels of different sizes and specifications for various uses such as televisions, desktop monitors, laptops, tablet computers, mobile phones, e-books, and car navigation devices.

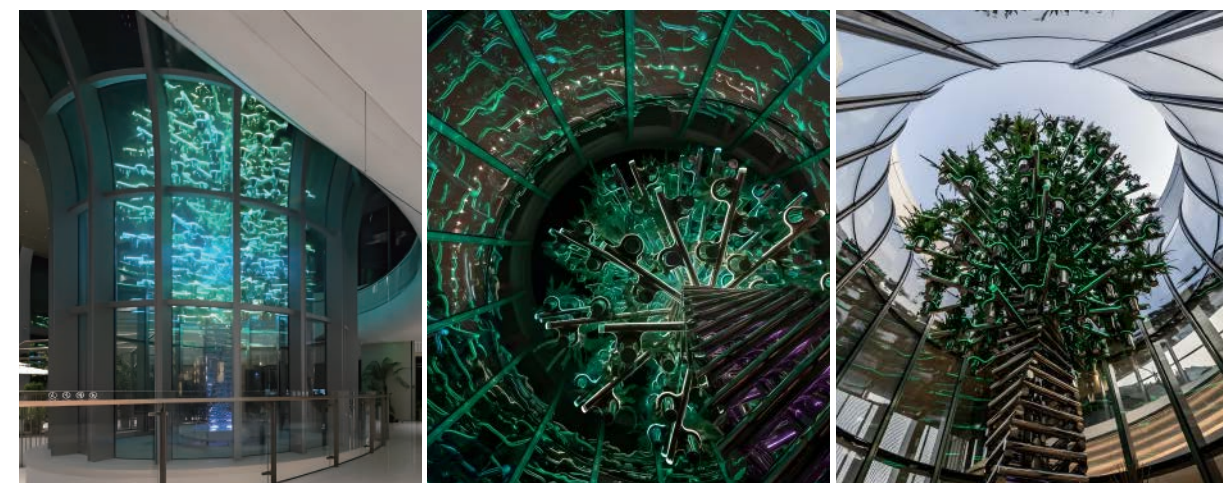

## BUSINESS

# Nanjing China Merchants Bureau Center Jinglan

China Merchants Center Zhenjing is developed by China Merchants Shekou Industrial Zone Holdings Co., LTD. China Merchants Shekou is a Fortune 500 company and a trillion-yuan central state-owned enterprise with a history of over a hundred years. Having been deeply rooted in Nanjing for 30 years, we have developed over 30 projects and gained recognition from more than 30,000 property owners. With rich experience and strong capabilities in various fields such as urban complex development, we can ensure the high quality of our projects.

## BUSINESS

# CCD Shenyang Hope Real Estate Brand Gallery

ChengChung Design (hereinafter referred to as CCD) in Hong Kong was founded by Mr. Joe Cheng, a renowned designer in Hong Kong. It is dedicated to providing professional interior design and consulting services for international high-end hotel brands. CCD, one of the world's top brand hotel interior design institutions, ranked third in the 2019 global hotel Interior design Top 100 ranking by the American magazine Interior Design, and first in Asia in the overall ranking.

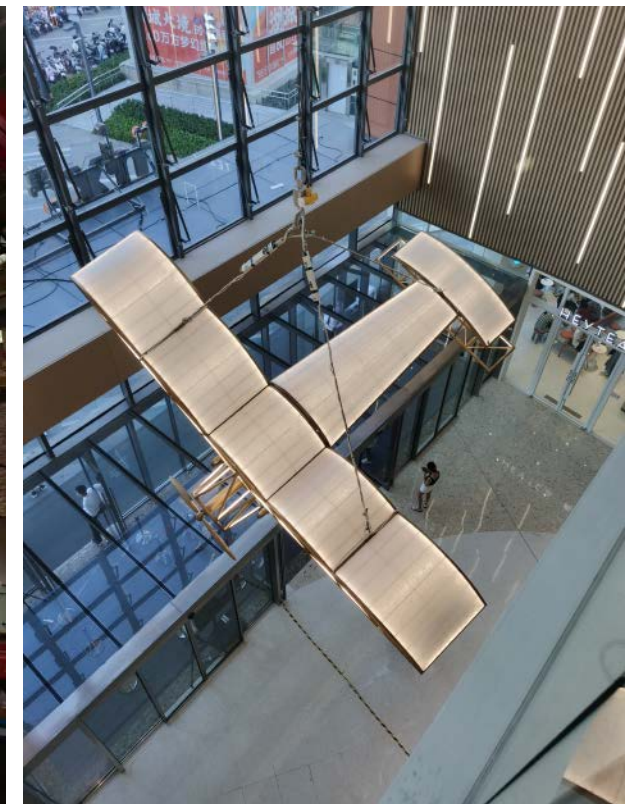

## BUSINESS

# Nanjing China Resources Mixc Flight Art Installation

Wanxianghui, a subsidiary of China Resources Group, is engaged in the retail industry closely related to people's lives. It adheres to the business philosophy of "fashion, quality, thoughtfulness, freshness, low price and convenience", and operates hypermarkets, lifestyle supermarkets, convenience supermarkets, regional shopping centers, and Ole supermarkets targeted at the middle and high-end consumer markets. And a variety of business formats such as Vango, a brand-new image convenience store meticulously crafted to meet the young consumers' pursuit of a fast and comfortable fashionable life.

## BUSINESS

# Poly Real Estate Crescent Sculpture Project

China Poly Group Corporation Limited is a large central enterprise under the management of the State-owned Assets Supervision and Administration Commission of the State Council. It was established in 1993. Poly Group has formed a development pattern mainly focusing on international trade, real estate development, research and development and engineering services in the light industry, operation services of process raw materials and products, cultural and artistic operation, production, sales and services of civilian explosives, information and communication technology, silk-related industries, and financial business. Its business covers more than 100 cities in China and nearly 100 countries around the world.

## BUSINESS

# Agora Hong Kong City

Yajiale Real Estate Holdings Limited, formerly known as Times Furniture Co., LTD., which was established in 1985, was founded in 1992 as Yajiale Real Estate Development Co., Ltd. in Zhongshan City. It is a joint-stock company engaged in real estate development, property management, interior decoration and hotel management, and is commonly referred to as Yajiale Group. The group's headquarters is located in Guangzhou City, Guangdong Province, and its subordinate projects are distributed in cities such as Zhongshan, Guangzhou, Foshan, Hong Kong and Macao.

## BUSINESS

# Guangzhou Yuexin Semiconductor Art Background Wall

Guangdong Xinxin Semiconductor was established in December 2017, with its headquarters located in Huangpu District, Guangzhou. It is a local 12-inch chip manufacturing enterprise in Guangdong and is known as "the No. 1 Chip in Guangzhou". With "customized contract manufacturing" as its core, it focuses on the manufacturing of analog chips for the Internet of Things and other fields, offering a wide range of products and filling the gap in the mass production of high-end analog chips in the Greater Bay Area.

## BUSINESS

# Imes Property Car Town

Times Real Estate, one of the top 100 real estate enterprises in China, is one of the most influential real estate development enterprises in South China. Since its establishment in 1999, the company has gradually developed into a group enterprise mainly engaged in residential real estate, integrating commercial real estate and property management. Our business covers economically developed cities such as Guangzhou, Foshan, Zhuhai, Zhongshan, Qingyuan and Changsha. We have successfully developed over 30 real estate projects, providing high-quality living Spaces for more than 80,000 families.

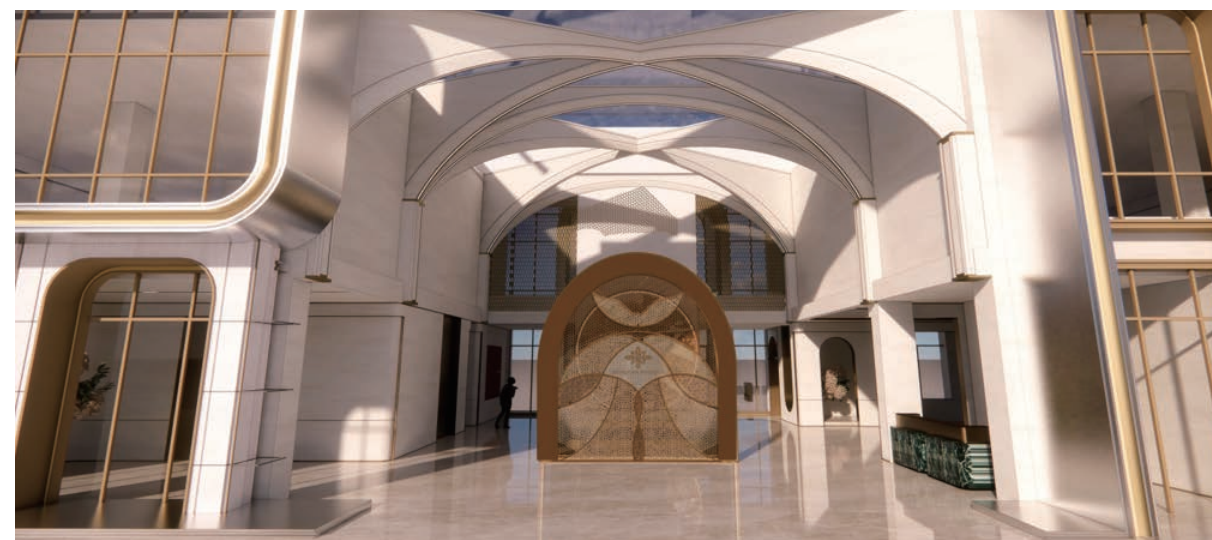

# China Overseas Changzhou Yanshan Fengdan

China Shipping Enterprise Development Group Co., LTD., a subsidiary of China State Construction Engineering Corporation Limited, was founded in Hong Kong in 1979 and was included in the Hang Seng Index in 2007. The company has 42 years of experience in real estate development and real estate operation management. Its business covers more than 80 cities in Hong Kong, Macao and the Chinese mainland, as well as many countries and regions such as the United States, the United Kingdom, Australia and Singapore.

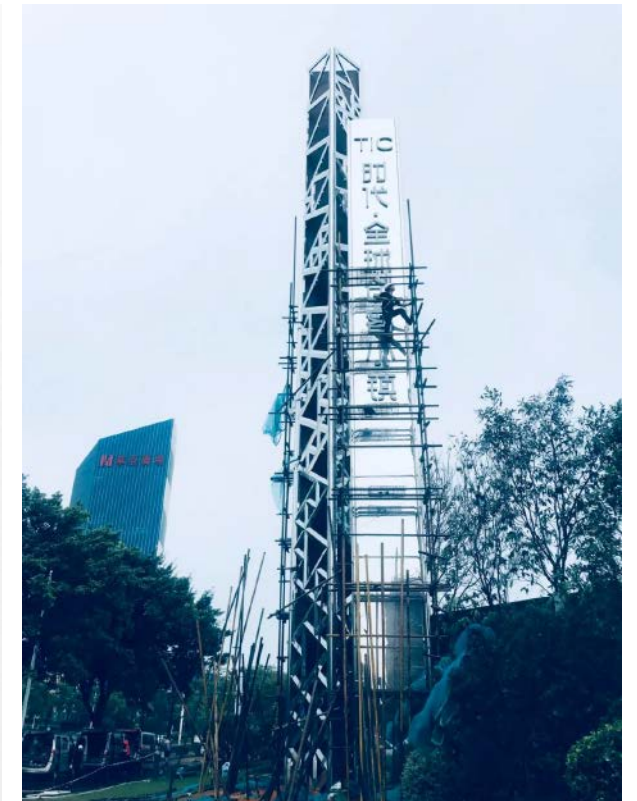

## BUSINESS

# Times Property Global Maker Town

Times Real Estate, one of the top 100 real estate enterprises in China, is one of the most influential real estate development enterprises in South China. Since its establishment in 1999, the company has gradually developed into a group enterprise mainly engaged in residential real estate, integrating commercial real estate and property management. Our business covers economically developed cities such as Guangzhou, Foshan, Zhuhai, Zhongshan, Qingyuan and Changsha. We have successfully developed over 30 real estate projects, providing high-quality living Spaces for more than 80,000 families.

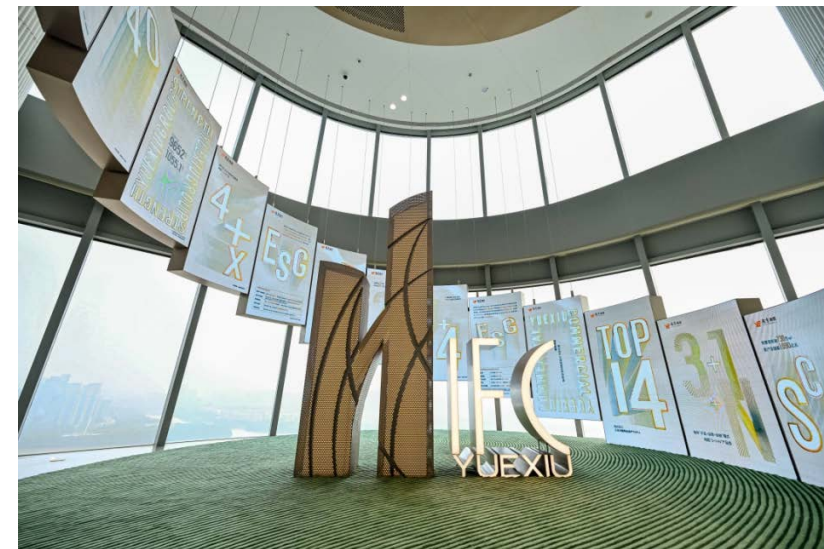

## BUSINESS

# Yuexiu Nansha IFC Headquarters

Guangzhou Yuexiu Nansha IFC (Yuexiu International Finance Center) is developed by Yuexiu Group, the largest municipal state-owned enterprise in Guangzhou, and is located at the tip of Lingshan Island in the starting area of Nansha Mingzhu Bay. With a planned height of 220 meters, it integrates multiple business forms such as Grade A office buildings and apartments. It is an important landmark in Nansha, promoting the development of finance and business, and has obtained multiple green building certifications.

**BUSINESS**

# Shenyang China Resources Times City

Developed by Shenyang Runtou Real Estate Development Co., LTD., a subsidiary of China Resources Land. China Resources Land is a leading urban comprehensive development operator in China and a subsidiary of the red central state-owned enterprise China Resources Group with an 83-year glorious history. It ranks 69th on the Fortune Global 500 list, enjoys a high brand awareness, is strong in strength, has rich experience in the real estate development field, and guarantees credibility and quality.

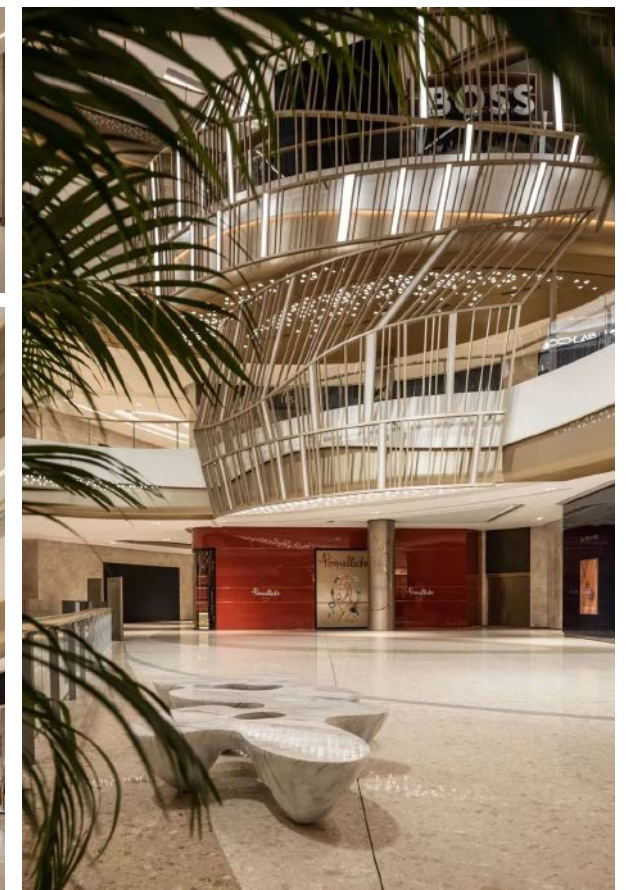

## BUSINESS

# Haikou CDF Duty Free Mall

Haikou China Duty Free CDF Duty-Free City is located on the west coast of Haikou City, adjacent to Xinhai Port. It was designed by a French company and takes "Nine Provinces Auspicious Clouds, Crown of the South China Sea" as its theme, integrating the natural and Marine culture of Hainan. The duty-free city gathers over 800 international and domestic brands, covering a wide range of categories. It also features a national trend zone to support local development. Inside, there are distinctive Spaces such as the AURA Sky Secret Forest created by WETA Studio. Here, metal art customization can fully demonstrate its capabilities. For instance, wavy aluminum single plates can be used to decorate the exterior facades of buildings, and metal lamps, sculptures, display stands, etc. can be customized to enhance the artistic texture of the space and the brand's style.

## BUSINESS

# Kingdee Software Park

Kingdee Software Park has a multi-location layout. The Shenzhen park is located by Shenzhen Bay, adhering to the concept of "simplicity, modernity and greenness", and adopts a double-curtain wall structure. The Nanjing Park is located in Qinhuai District. It is modern, simple and full of a sense of technology. The Shanghai Park is located in the core area of Zhangjiang Hi-Tech Park. The internal Spaces of each park are rationally designed, integrating both office and leisure functions. For instance, the Shenzhen park features distinctive meeting Spaces, while the Shanghai park boasts ecological landscapes. In terms of metal art customization, it can be used for decorative lines and signs on the exterior of buildings to create a unique image. The indoor lamps and railings add a touch of style. Sculptures and outdoor facilities in public areas can incorporate technological elements to enhance the overall artistic atmosphere and quality.

## BUSINESS

# Chunquan Cultural Center

Chunquan Cultural Center is located in Yanling County, Xuchang City, Henan Province. It is a comprehensive cultural landmark integrating cultural display, leisure and entertainment, and art exchange. Its architecture integrates regional culture with modern aesthetics. Its exterior design is unique and the lines are smooth. It uses glass and stone to create a transparent texture. The interior is equipped with functional areas such as exhibition halls and theaters. Metal art customization can be fully displayed here: The exterior facade is inspired by the flowers of Yanling, featuring metal carved curtain walls or art installations. Metal display stands and lamps are used indoors to enhance the style of exhibitions and theaters. The public area is equipped with theme sculptures, flower stands, etc., adding artistic details to the space.

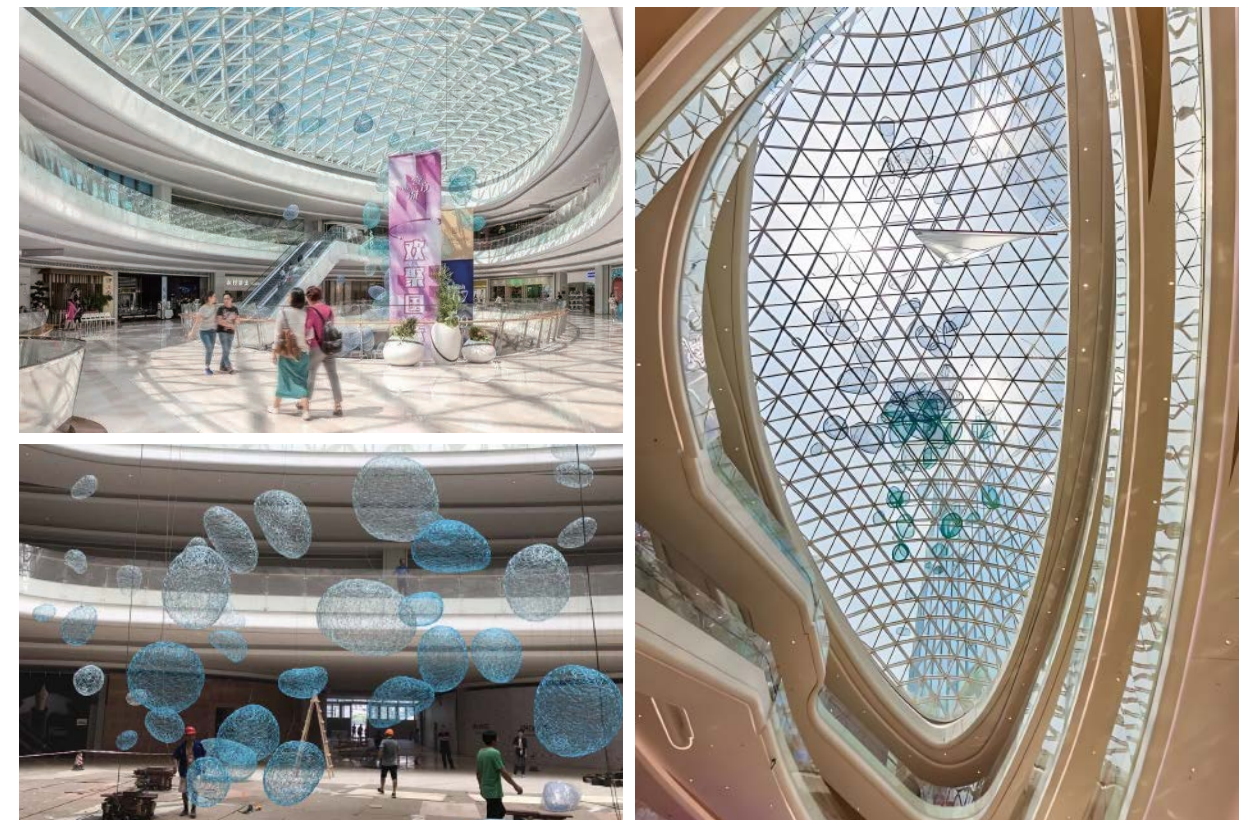

## BUSINESS

# Shenzhen Uniwalk

Shenzhen One Square City is the flagship of experiential commerce in the Guangdong-Hong Kong-Macao Greater Bay Area. It is located in the central district of Bao 'an and seamlessly connected to Baohua Station of Metro Line 5. With a commercial area of 360,000 square meters, it gathers over 300 brands and integrates diverse business formats, making it a new commercial landmark in Shenzhen. Its architecture integrates modern aesthetics and adopts a "double ground floor" design to create an immersive consumption scene. Metal art customization can play a significant role here, from large-scale signs and wavy curtain walls that enhance recognition, to display cabinets and personalized lamps that improve the display quality, and even to artistic seats and reliefs in public areas, all contributing to the dual enhancement of commercial atmosphere and artistic value.

# hotel

Customize the exclusive temperament of the hotel with metal. Designed Indonesian pattern-style screens for the Westin Jakarta, embellished the resort atmosphere for the Luneng Qiandao Lake Hotel, and integrated modern design into trendy hotels, enhancing the spatial style and check-in experience from the lobby to the guest rooms.

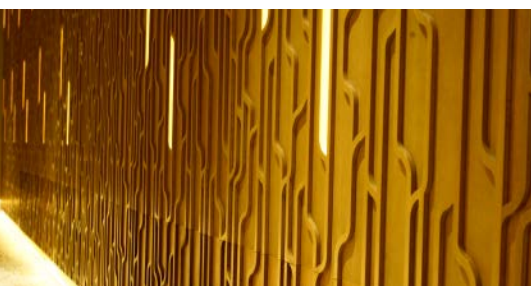

## HOTEL

# Jakarta Westin Hotel

The Westin Jakarta Hotel is located in Gama Tower, the tallest building in Indonesia. It was invested and developed by Gama Corporation and combines traditional Indonesian ikat patterns with modern metalworking techniques. Through the metal screens, aluminum panel curtain walls and dynamic lighting installations designed by HBA, Create a benchmark for high-end business vacations that integrates nature and modernity. The application of metal art runs through architectural decoration and public Spaces, enhancing the regional cultural image and the brand's luxurious experience.

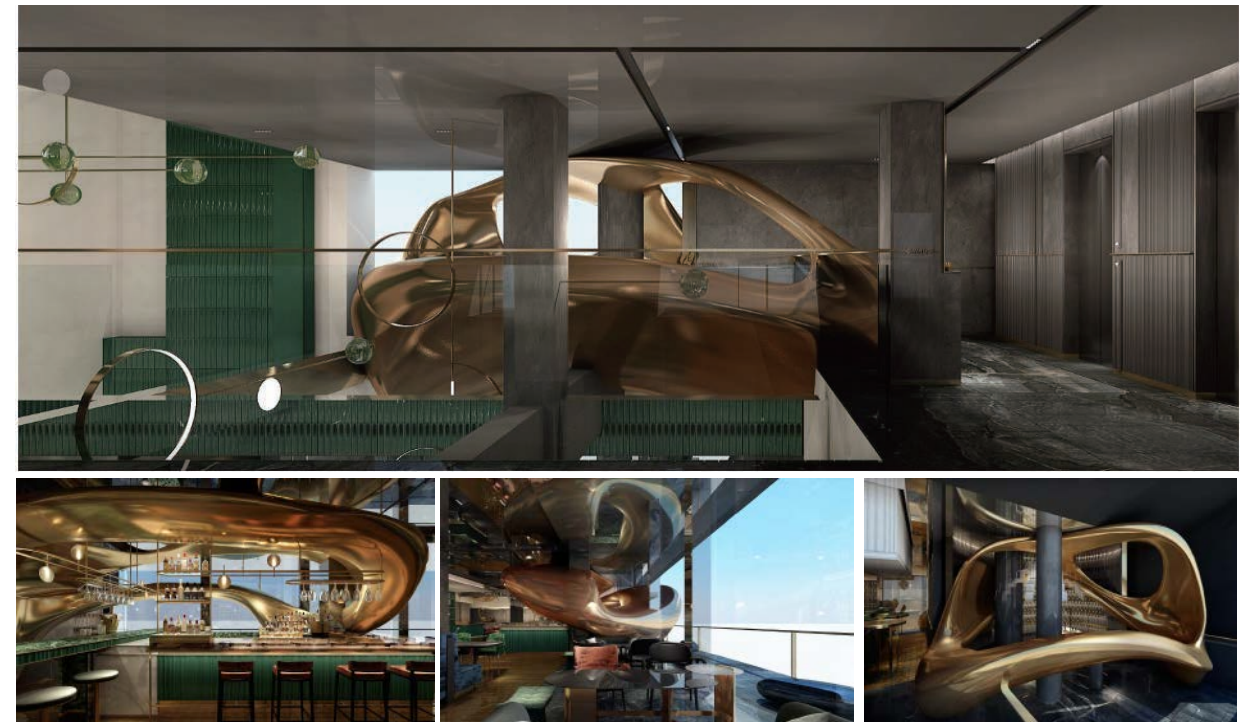

## HOTEL

# Fangcheng Future Trend Hotel Jincheng, Shanxi

The Fangcheng Future Trend Hotel in Jincheng, Shanxi Province is a fashionable and light luxury hotel. With the service philosophy of "understanding guests' needs and exceeding their expectations", it creates an elegant, classic and exquisite space for guests. The hotel is located at No. 576, Fengtai West Street, Jincheng City. It is a hotel integrating catering, accommodation and leisure. It mainly serves Cantonese cuisine, Western food, afternoon tea, etc.

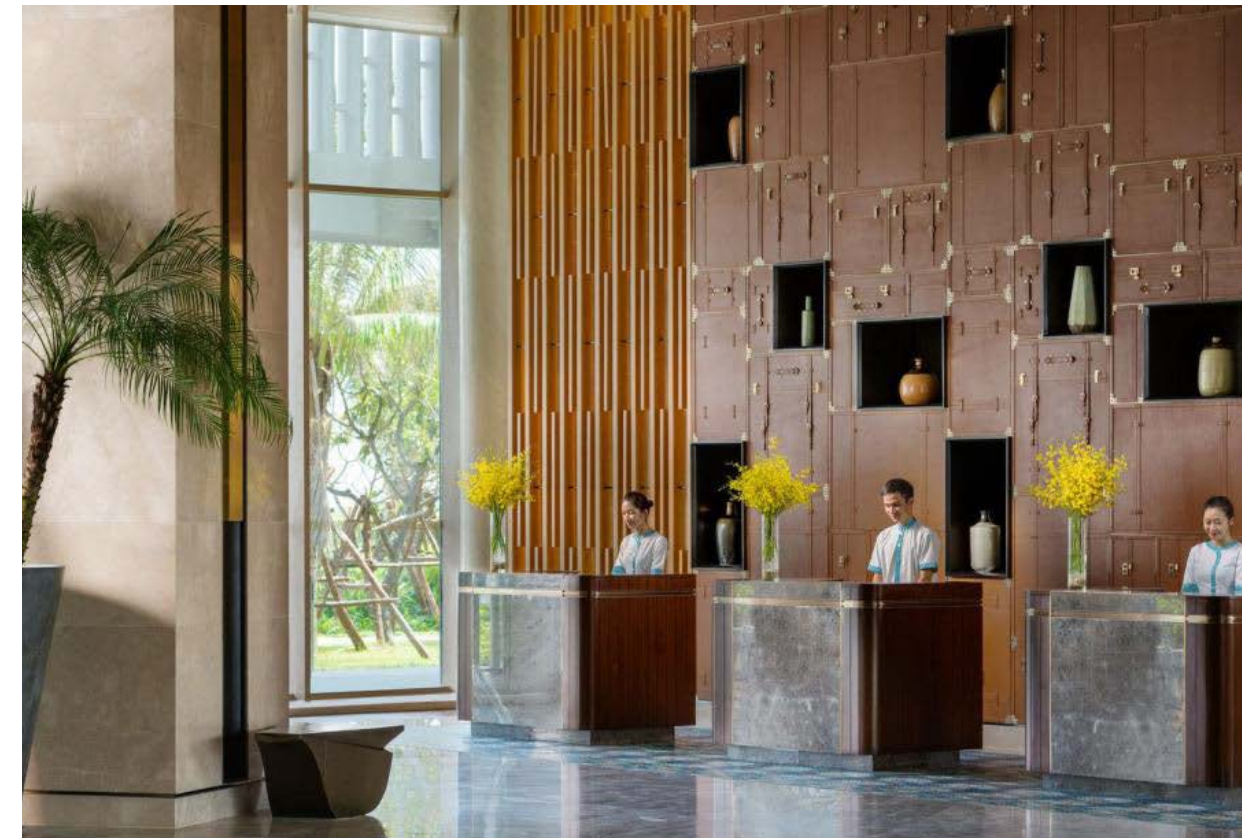

## HOTEL

# Rui Xiang Hotel CAM Ranh Bay, Vietnam

The Rui Xiang Resort Hotel in CAM Ranh Bay, Vietnam, is a stylish and modern family resort hotel, making it an ideal accommodation choice for both vacationers and business travelers. ## HOTEL

# Beijing Grand Hyatt Hotel

The Grand Hyatt Beijing is located in the Oriental Plaza along Chang 'an Avenue, close to attractions such as the Forbidden City. It is a high-end luxury hotel that integrates accommodation, dining and business functions. Its architectural appearance blends modern and elegant styles, with meticulous details in the interior space and distinct themes in each area. Metal art customization can be used for exterior signs and sculptures, interior screens, lamps, tableware, as well as decorative paintings and benches in public areas. Through exquisite craftsmanship and unique shapes, it enhances the luxurious style and artistic atmosphere of the hotel.

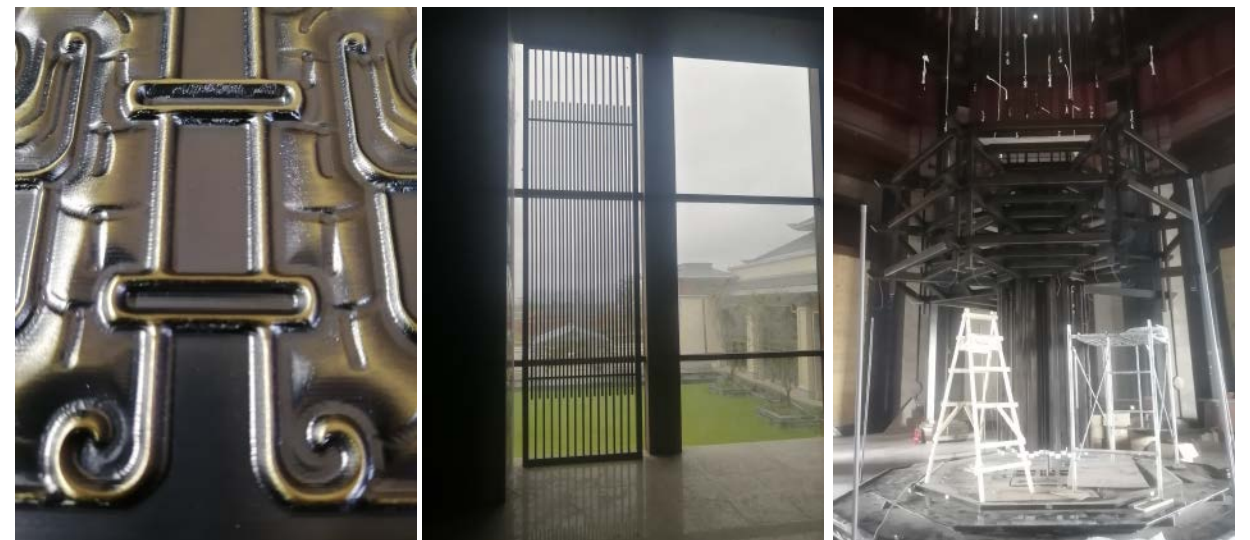

## HOTEL

# Hanzhong Hotel

Hanzhong Hotel is based in Hanzhong, Shaanxi Province. Relying on its profound regional culture and beautiful scenery, it creates a comprehensive and high-quality living space. Its architectural appearance integrates elements of Chu-Han culture and Qinba mountains and waters, presenting a simple and grand style. The interior combines traditional aesthetics with modern comfort. From the lobby to the guest rooms and restaurants, it showcases the charm of local culture everywhere. Metal art customization has a wide range of applications here. It can be used for doors carved with Chu and Han patterns, reliefs on the exterior walls that showcase historical stories, as well as screens and lamps inside, comprehensively enhancing the artistic texture and cultural atmosphere of the hotel.

## HOTEL

# Chongqing Hyatt Regency

Hyatt Regency Chongqing is located in the heart of Yuzhong District, offering a view of the confluence of the two rivers and is close to Jiefangbei. It is a high-end business and leisure hotel. Its architectural appearance is modern and fashionable, echoing the mountain city's landscape. The interior incorporates elements of Ba and Yu cultures, with the lobby, guest rooms and restaurants each having their own unique features. Metal art customization has a wide range of application Spaces here, and can be used to create signs with the outline of mountains and waters, as well as curtain wall decorations with the lines of stilt houses. Interior design: Ba Yu patterned screens and river water ripple lamps; Bridge element seats and landscape pattern signboards are set up in the public areas to enhance the artistic texture and cultural connotation of the hotel.

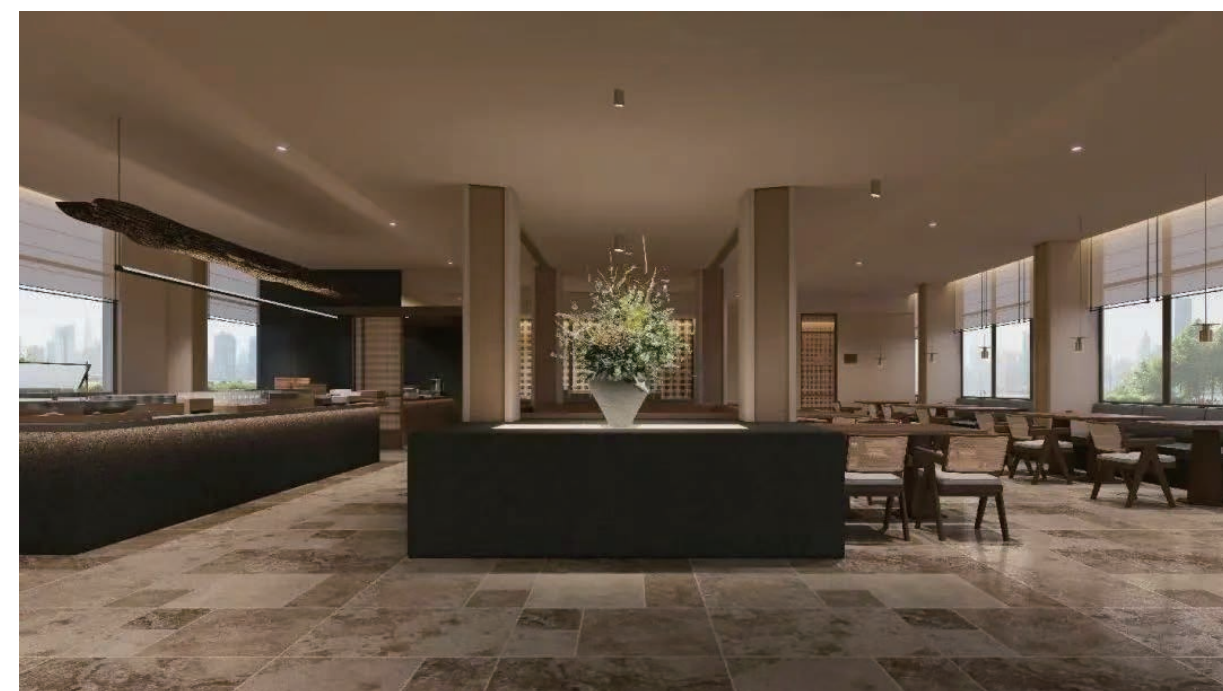

## HOTEL

# Huzhou Atour Hotel

Huzhou Atour Hotel, based in Huzhou, known as the "Silk Capital", takes "Reading and Culture" as its theme to create a mid-range boutique living space. Its appearance integrates elements of the water towns in the south of the Yangtze River, being simple and modern. The interior is inspired by silk culture, the scenery of Taihu Lake and other elements, integrating calligraphy and painting works as well as silk fabrics into each area to create a rich regional cultural atmosphere. Metal art customization has great potential here. It can be used to create Taihu wave-shaped logos, silk-textured carved curtain walls and other exterior designs. Custom-made eave pattern screens and silk-shaped lamps are available indoors. The seat signs integrating garden window lattice elements in the public areas comprehensively enhance the artistic texture and cultural charm of the hotel.

# Architecture

Endow architectural aesthetics with a soul through metals. The outline of the Hanyuan Flying Saucer Pavilion is shaped by 316 stainless steel. The metal structure enhances the modern feel of the urban complex. From the curtain wall to the components, the building is endowed with both practical and artistic value, becoming a part of the urban landscape.

## ARCHITECTURE

# Hanyuan Fulin Memory Flying Butterfly Art Museum

The Hanyuan Fulin Memory Flying Saucer Art Museum is located in the Fulin Memory Park of Hanyuan County. It takes the "flying saucer" as its design inspiration and adopts a streamlined metal structure and curved metal curtain wall (316 stainless steel fluorocarbon coating), integrating local cultural symbols such as the Dadu River landform and the ancient Tea Horse Road (metal carving/hollowed-out techniques). Create a cultural and tourism integration landmark that combines a futuristic feel with regional cultural narratives, with an expected annual reception capacity of over 200,000 people. Metal art cooperation will cover architectural decoration, public sculptures and derivative product development.

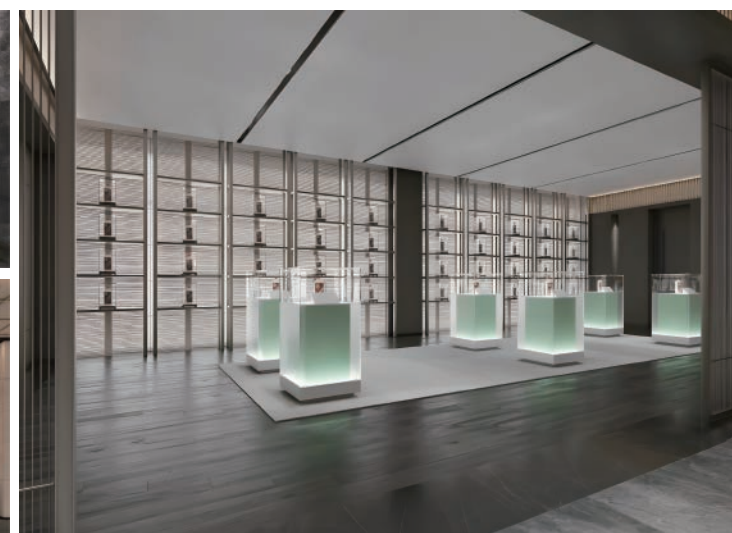

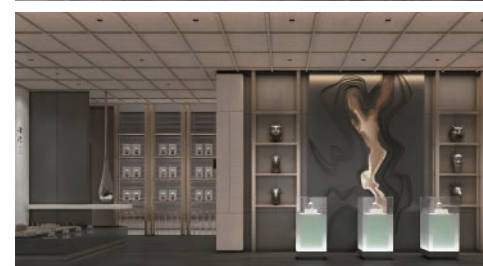

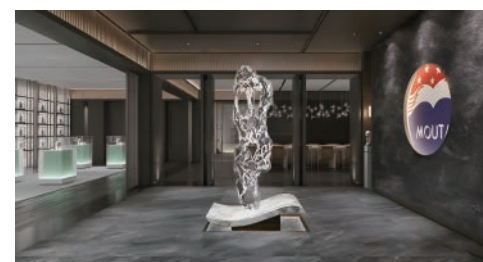

## ARCHITECTURE

# Moutai Taipei Headquarters

Moutai liquor is determined by a combination of factors such as its long brewing history, unique brewing techniques, superior internal quality, profound brewing culture, and the unparalleled role it has played in China's political, diplomatic and economic life throughout history, as well as its traditional and special status in the Chinese liquor industry. It is the result of the favor of three generations of great men and the long-term test and cultivation of the market. It has also received praise from the people in their actual life tastes and experiences.

## ARCHITECTURE

# CCD Guangzhou Window Brass Art Background Wall

## ARCHITECTURE

# Guangzhou National Version Repository

The National Version Repository of Guangzhou is located in Baiyun District, Guangzhou City. It is an important component of the National Version Resource Repository and integrates functions such as version preservation, display and exchange. The building integrates the characteristics of Lingnan with modern style, combining the layout of a "Chinese academy" with elements of a "Lingnan garden" to create an elegant atmosphere. The interior space of the museum is rich and the exhibition integrates digital technology. For metal art customization, it can be used to create artistic gates that integrate traditional patterns and carved curtain walls that incorporate Lingnan elements. Indoor metal display stands and artistic lamps are suitable. Seats and signboards in public areas can also be custom-made from metal, highlighting cultural charm and artistic texture.

# Culture and tourism

Interpret regional culture and natural features with metals. Create ice and snow-themed installations in Taicang Alps Resort, streamlined buildings in Hanyuan Flying Saucer Art Museum, and artistic embellishments of peach blossoms in Nyingchi to shape cultural and tourism landmarks, convey historical heritage, and enhance immersive cultural and tourism experiences.

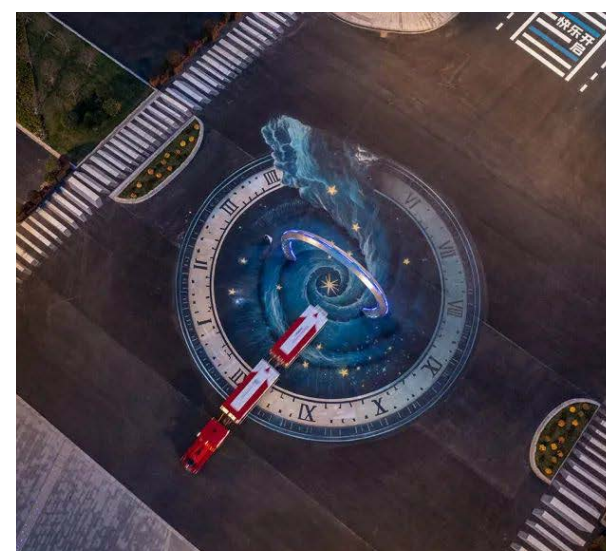

## CULTURE AND TOURISM

# Taicang Alps International Resort

Taicang Alps International Resort is developed by Fosun Tourism and Culture, with a total investment of over 12 billion yuan. It is positioned as a one-stop high-end ice and snow-themed resort destination in the Yangtze River Delta. The first phase has already opened, and the second phase is planned to be laid the foundation in 2025. It will build the world's largest indoor ski resort (190,000 square meters) and snow-themed hotels, etc. The project integrates the natural elements of the Alps with modern design. Metal art is widely applied, such as the mirror-finished stainless steel bear sculpture, the Fogsen tunnel installation (combining metal frames with graffiti), and the 25,000-square-meter metal aluminum plate curtain wall (achieving the "sunlight on the Golden Mountain" effect with zero leakage). The second phase of the suspended guest rooms, light groups and other scenes provide metal customized incremental space. It is recommended to use anti-corrosion and low-temperature resistant materials (such as 316 stainless steel), and combine IP collaboration with government cultural and tourism subsidies to create a solution that is both artistic and functional. This project has received over 320,000 visitors. In the future, it will rely on the differentiated strategy of "art + ice and snow"

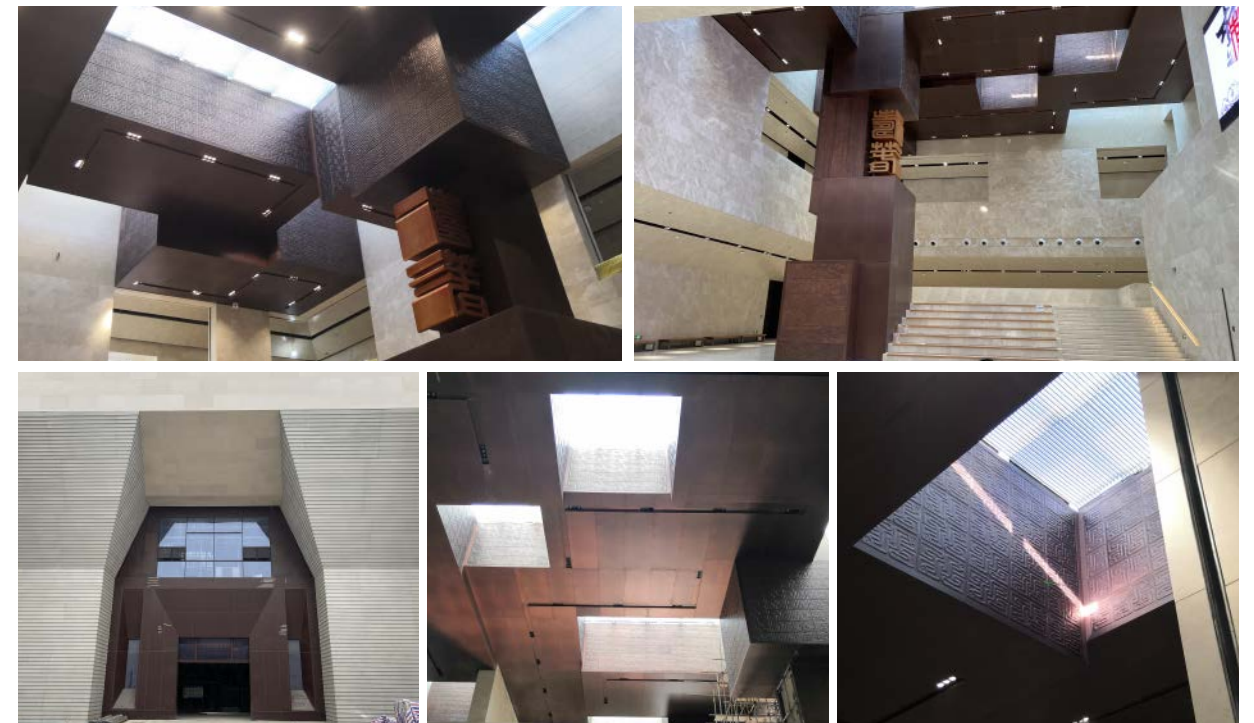

## CULTURE AND TOURISM

# Anhui Museum

Anhui Museum was formerly known as Anhui Provincial Museum established in 1956. In 2010, it was renamed and adopted the "one Museum, Two Museums" model (Luyang Museum and Shushan Museum). It now houses over 310,000 cultural relics, including distinctive collections such as bronze wares from the Shang and Zhou Dynasties. It is a national first-class museum that has received numerous honors and combines functions such as cultural display and education.

## CULTURE AND TOURISM

# Nyingchi Ten Thousand Peach Blossoms Art Installation

Nyingchi is a prefecture-level city under the jurisdiction of the Tibet Autonomous Region. It was formerly known as Gongbu. Located in the southeast of Tibet, it is known as the "Jiangnan of Tibet". It has the world's deepest canyon – the Yarlung Zangbo Grand Canyon and the third deepest canyon in the world – the Parong Zangbo Grand Canyon. Nyingchi boasts beautiful scenery. Many areas are known as the "Jiangnan of Tibet". There is the Nyingchi Peach Blossom Festival, the colorful Nan Yi Valley and so on. There are also Motuo County and Chayu County, which are called the "Xishuangbanna of Tibet".

## CULTURE AND TOURISM

# Nanhai Grand Art Festival Sun Art Installation

The Nanhai Land Art Festival was held in Nanhai, Foshan, Guangdong Province. With rural fields and ancient villages and old streets as exhibition venues, it showcased the local history, culture and natural scenery through diverse art forms, promoting the development of rural culture and tourism. His works are rooted in local culture, such as themes like mulberry pond fish ponds and dragon boat folk customs. They are created using waste materials, emphasizing environmental protection and integrating with the villagers' lives. Metal art customization can be used to create stainless steel outdoor installations with dragon boat themes, metal seat railings and signboards integrating Lingnan elements, and also to customize metal display stands and geometric-shaped lamps in indoor exhibition halls to enhance the artistic atmosphere.

# Villa

Customize the high-end taste of private residences with metal. Equip the Jiuzhang Villa in Beijing with high-end building materials, create brass carved murals and pure copper relief background walls, adapt to diverse styles, and use exquisite craftsmanship to create a personalized and noble private space.

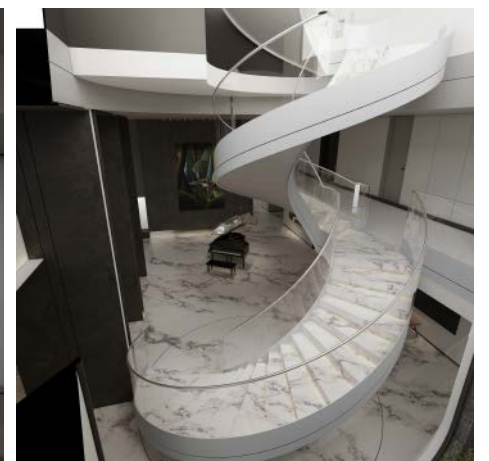

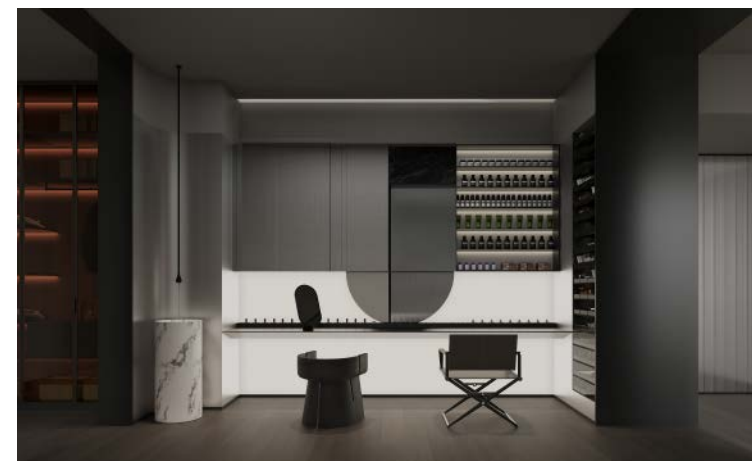

## VILLA

# Hangzhou Yinlong Bay Villa

Hangzhou Yinlongwan Villa is located on Wenxing Road, Wenyan, Xiaoshan District, at the confluence of three rivers. It is adjacent to Times Avenue on the east side, offering convenient transportation and a view of both the bustling city and the river. Developed by Zhong 'an Real Estate, it is positioned as a high-end detached commercial villa. Its architecture integrates multiple styles such as grass-land Wright and French, combining free and elegant with romantic and noble charm. The modern and simple facade offers a panoramic view of the river. The clubhouse within the community meets the needs of business and leisure. Here, metal art customization has a wide range of applications. Whether it's the stylish gate railings, exquisite indoor lighting fixtures and ornaments, or the artistic courtyard facilities, they can all enhance the unique texture and artistic atmosphere of the villa.

## VILLA

# Jiangmen Yonglixuan Villa

The Pukui Dream Yongli Xuan Villa is located within the Wuyi Pukui Golf Club at No. 60, Beihuan Road, Pengjiang District, Jiangmen. It is a standalone villa area built within the golf course. All the villas are three-story structures, with unit areas ranging from 550 to 990 square meters, and are ready for occupancy upon completion. Each household has a large private garden, indoor double parking Spaces, and is equipped with a banquet hall, home theater, etc. The garden is in the Mediterranean Spanish style. The building stones are imported and there are classical column styles and other shapes. Metal manufacturing can be integrated into the architectural details of Spain, such as columns and flower plate decorations, or used to create metal art installations for private gardens. It can also be combined with metal customization in indoor wine cellars and swimming pool areas to enhance the texture, which is in line with the high-end positioning of villas.

## VILLA

# Beijing Jiuzhang Staircase

Jiuzhang Villa is developed by Beijing Chengtong Huayi. With the design concept of "harmony between man and nature", it is located on Dongwei Road in Chaoyang District, Beijing, adjacent to the Airport Expressway, enjoying a superior location and well-developed surrounding facilities. The project is a single-family villa with a 70-year property right, covering an area of 91,924 square meters. It adopts a 2 in the front and 3 in the back architectural form, drawing on the essence of classical architecture and integrating traditional elements. It uses high-end building materials and is equipped with a clubhouse of approximately 9,000 square meters. It is a high-end residential project that combines cultural inheritance and quality life.

## VILLA

# Country Garden Villa

Country Garden has laid out a diverse range of villa projects across the country, covering high-end, improved and vacation types, creating a comfortable living atmosphere with high-quality properties and landscapes. Its villa architecture integrates European, Chinese and modern styles. The spatial layout is practical and flexible, and it is both aesthetically pleasing and functional both indoors and outdoors. Metal art customization is suitable for multiple scenarios: In terms of appearance, it can be used to create carved doors and relief exterior walls. Artistic lamps and metal furniture can be customized indoors. The public areas are suitable for theme sculptures, distinctive signboards, etc. By integrating elements of different styles and exquisite craftsmanship, the artistic texture and living style of the villa can be enhanced.

## VILLA

# Yongjing Bay Investment Villa

Yongjingwan Merchants Villa is a high-end residential project. Its location integrates natural and urban resources, targeting high-net-worth individuals. The community is well-equipped and creates a noble living atmosphere. The architectural style integrates modern simplicity, light luxury and new Chinese elements. The interior layout is practical and comfortable, and the outdoor courtyard landscape is exquisite. Metal art customization is widely applied in it, and the appearance can be made into carved gates and signboards. Chandeliers and screens can be customized indoors. The public areas are suitable for sculptures, seats, etc. Through diverse designs and craftsmanship, the artistic value and quality of the villa are comprehensively enhanced.
